
Father, mother, maid, butler ... any of these individuals could take the blame for your heinous act, if you can find the right evidence, plant it in the right location and manage to raise the suspicions of the Inspector.

- **Face the Inspector:**

When the deed is done, it's time to face the music and be interviewed by the wily, perceptive Inspector. Can you dodge his questions and avert his suspicions? Will you walk away a free man? Many possible endings await ...

like dark souls. While a solid attempt, the game falls short of pretty much all accounts except one:

- Super short, ~90min to play through everything
- Time mechanic interesting but fairly repetative
- The game is designed for 7-10 year olds. While I don't take that as a negative please note that. I enjoyed Rayman a lot which may have similar audience I found this too childish.
- The puzzles are not always very logical especially given the target audience, platforming is straightforward and linear
- Graphics are very good and animation is what you would expect for an artsy game
- Story is decent for the short time game has to offer

If you are looking for a game for your kid then this might be a good choice. Alternatively, get it on severe discount. Otherwise, move along.. This not a HOG in any way. It's well enough presented but only really suitable for young children. The "Hidden Object" tag should definitely be removed as it's misleading. The game itself is more of a guess-the-unrevealed-object affair which is very simplistic and without depth or any real story. Get it for the youngster if you like but otherwise avoid. It's not terrible, just pointless. 3/10.. Had to leave a review before it's gone.. Cute game, very suitable for children. Shares and improves knowledge about the time playfully.

The little car goes on an adventure from Stone Age up to the [future.In](#) every time zone, he has to solve tasks to go on. Everything can be clicked and discovered. If there is a Problem, the car guides and helps you. This game made my childhood awesome, still love it though.. Best Total War. Good quality and open world, but srsly, whoever made those missions should be fired... Fun mini mysteries, with great noir styling.. Where to start with this title... For the cheap price tag, I believe its worth it. You may get 2-3 hours of fun, fun being some insane 8 bit duck firing particle effects all over the screen whilst listening to some crazy yet cool music tracks. It has a few little secrets to find along the way, and a nice voice over by the Developer. For some gameplay and a more in-depth look, take a lookie at the video below.

https://www.youtube.com/watch?v=onkycYTW_nc. Whilst it is a bit different than the previous Farm Frenzy it is still fun to play. Goals are easy to achieve.

Not yet, no way.. This game is wonderful but until they do something about the verbal abuse and the toxic community around it I can't give it a recommend. its more toxic than anything I have seen in awhile..

had a middle option, instead of just thumbs up or down, I'd give it that. I've played it for 9 hours so far, and I'm not ready to quit yet, which is a lot more than I can say for more expensive games I've purchased lately.

It definitely won't be everyone's cup of tea, but if you like gacha type games, pick it up on sale sometime.. Actually good for the price. Helped organized needed information nicely.. I thoroughly enjoyed playing through this game. The puzzles are simple and relaxing, but can become more challenging when playing against the clock. The art style is beautiful and very pleasing to the eye. Suitable for adults and kids alike.. Due to a bug in the game, I got to a point where I could not continue the story. The game wanted me to speak to the shadow person but would not give me the option to delve deeper. I loaded a few different past saved games but still ended up at the same choke point. I was approximately 90 minutes into the game and didn't want to start over and hope it didn't happen again.

. pretty♥♥♥♥♥innit. A peaceful, casual game.

It's yet another Columns clone, but this time they are trying to add a story and... depth... I guess with the leveling up and choosing of different monsters to attack with.
